DUAL ENROLLMENT (DE) MATH 163 is a hybrid course that provides high school students the opportunity to earn college credit for Applied Calculus while still in high school. The course content is primarily delivered online through *MathXL* and/or *MoodleDE*. The Southeastern instructors of record develop course content and provide online instructional materials such as videos and step-by-step learning aids, ungraded instructional assignments, and ungraded exam study guides to help prepare students to complete the graded assignments and the exams, which are also provided by the Southeastern instructors of record. The high school teachers will act as facilitators; they will assist with student registration and enrollment, proctor exams, provide supplemental instruction, and serve as a daily learning resource for students as they assimilate course content. The Southeastern instructors of record are assigned to specific schools, and will visit the classes periodically. The students' final course grades are assigned by the instructors of record.

PREREQUISITE: Credit in MATH 161, and eligibility for Southeastern Mathematics Dual Enrollment courses, as outlined in the Southeastern Dual Enrollment Eligibility Guidelines.

TRANSFERRING COURSE CREDIT: It is incumbent upon all students and parents to determine the transferability of Dual Enrollment course credit to other institutions. For in-state institutions, Southeastern courses can be cross-referenced using the Statewide Articulation Matrix to determine transferability (<https://regents.la.gov/articulationandtransfer/>).

COURSE DESCRIPTION: Mathematics 163 is an introduction to differential and integral Calculus designed for non-STEM majors. Topics include limits, the derivative, applications of the derivative, antiderivatives, and the definite integral. Polynomial, rational, radical, exponential, and logarithmic functions will be studied. The typical weekly structure of the course includes in-class instruction, computer laboratory work, and out-of-class assignments. Computer and internet access are necessary for completion of all assignments, both in and out of class. Evaluations will be based on homework, quizzes, supplemental in-class paper assignments, tests, and a final exam.

CALCULATORS: The TI-30XII (solar or battery) is required. The four-function calculator found on *MathXL* will be available on exams. **NO OTHER CALCULATORS ARE ALLOWED ON TESTS**, and thus are not recommended for use on homework or quizzes.

BREAKDOWN OF MATERIAL COVERED

Test	Textbook Sections Covered	Corresponding Quizzes
Unit 1	3.1, 3.2, 3.3, 3.4, 3.5	Quiz 1 (Prerequisite Skills), Quiz 2 (3.1, 3.2), Quiz 3 (3.3, 3.4, 3.5)
Unit 2	4.1, 4.2, 4.3, 4.4, 4.5, 5.1, 5.2	Quiz 4 (4.1, 4.2, 4.3), Quiz 5 (4.4), Quiz 6 (4.5), Quiz 7 (5.1, 5.2), Supplement 1 (5.1-5.2)
Unit 3	5.3, 5.4, 6.1, 6.2, 6.3, 6.4	Quiz 8 (5.3, 5.4), Quiz 9 (6.1, 6.2), Quiz 10 (6.3, 6.4), Supplement 2 (5.1-5.4)
Unit 4	7.1, 7.2, 7.3, 7.4	Quiz 11 (7.1, 7.2), Quiz 12 (7.3, 7.4)

****COURSE GRADES:** Percentages earned as follows determine the course grade.

COURSE GRADE COMPONENTS

4 Tests plus a Comprehensive Final = 68% of course grade
 2 Supplemental Paper Assignments = 12% of course grade
 12 Quizzes = 10% of course grade
 23 Homework Sets = 10% of course grade

COURSE GRADING SCALE

A 89.50% - 100%
 B 79.50% - 89.49%
 C 69.50% - 79.49%
 D 59.50% - 69.49%
 F below 59.50%

Homework, quiz and test scores are reported immediately by *MathXL* upon submission. The current overall course grade is available at all times through the *Results* page in *MathXL*.

****PLEASE NOTE:** All policies on course grading, including percentage weights of the different types of assignments and dropping of assignments and tests/exams, are currently under review and are subject to change for the 2023-2024 school year.

WITHDRAWAL DEADLINE: The last day to withdraw from this course depends on whether the format of the course is fall-only, year-long, or spring-only. The withdrawal deadlines are given in the table below. No withdrawals from this course can be made after the date given here for each course format. Note that it is the student’s responsibility to complete withdrawal forms and file them with the appropriate high school personnel.

Deadline to Withdraw	Course Format
Friday, October 27, 2023 at 12:30 p.m.	Fall-only (course ends before semester break)
Thursday, March 28, 2024 at 12:30 p.m.	Year-long or Spring-only (course ends in the spring)

COMPLETION DEADLINE: All coursework must be completed by the deadline shown in the table below, depending on whether the format of the course is fall-only, year-long, or spring-only. These deadlines are absolute; no credit will be given for coursework completed after the date given here for each course format.

Deadline to Complete All Coursework	Course Format
Friday, December 1, 2023	Fall-only (course ends before semester break)
Friday, April 12, 2024	Year-long (begins in August/September, ends in the spring)
Friday, May 3, 2024	Spring-only (begins in January, ends in the spring)

****HOMEWORK:** Homework will be assigned for each textbook section of material covered and will be completed online through *MathXL*. Homework need not be completed in one sitting, but it must be completed before the due date and time. ***Students must click the “Check Answer” and “Save” buttons after each homework question in order for it to be recorded properly.*** Each homework assignment is worth 10 points, and there is a total of 23 homework assignments. At the end of the semester, the two lowest homework scores will be dropped; the remaining 21 homework scores make up 10% of the course grade.

****QUIZZES:** There will be a quiz given approximately once per week, usually on material covered in two homework sets. Quizzes will be completed online through *MathXL*. Students will be able to submit each quiz up to 10 times, with the best score counted toward the course grade. Quizzes must be completed before the due date and time. ***Students must click the “Submit Quiz” button in order for it to be recorded properly.*** Each quiz is worth 10 points, and there is a total of 12 quizzes, although Quiz 1 does not count toward the course grade. At the end of the semester, the two lowest quiz scores from Quizzes 2-12 will be dropped; the remaining 9 scores make up 10% of the course grade.

****SUPPLEMENTAL PAPER ASSIGNMENTS:** There are 2 supplemental paper assignments, worth 75 points each. These assignments will be done in class and will be monitored by the class facilitator. The dates will be given by the facilitator. The scores on these two assignments make up 12% of the course grade.

****TESTS:** There are 4 unit tests plus a comprehensive final exam, all completed through *MathXL*. There will be a practice assignment for each test/exam, available at least one week prior through *MathXL*. The practice assignments cover the same topics that are covered on the actual tests/exams and are intended to aid the student in studying for the tests/exams; however, they are not timed and are not intended to mimic the tests/exams. Each test/exam is worth 100 points, and the lowest of the five grades is dropped. The remaining four grades make up 68% of the course grade.

DUE DATES AND MAKE-UP POLICY:

- Refer to the calendar in *MathXL* for all due dates on homework assignments, quizzes and tests. These dates will be determined and posted by your facilitator.
- Make-up work will be allowed only in the event of a valid, documented excuse. Any missed work not accompanied by a valid, documented excuse will be assigned a grade of zero and that zero will be ineligible for dropping.
- Contact your facilitator immediately if you miss a test or an assignment. He/she will instruct you on how to proceed.
- All make-up work, including tests, must be completed upon return to school, no later than two weeks after the original due date as posted on the *MathXL* calendar for the assignment in question. Exceptions will be possible only in the event of documented extenuating circumstances, and will be considered on a case-by-case basis. Any request for consideration of special circumstances must be submitted by your facilitator to the Southeastern Louisiana University Mathematics Department within two weeks of the original due date for the assignment in question.
- All make-up homeworks and/or quizzes must be completed before the corresponding unit test is taken.

TECHNOLOGY REQUIREMENTS AND WORKING FROM HOME: Students are expected to have reliable internet and computer access outside of class, and they will be expected to complete homework assignments and quizzes outside of class. The online material for this course can be accessed from any computer with an internet connection. Learning aids, videos, and all homework assignments, quizzes and exercises are found on *MathXL* at www.mathxl.com. Additional videos, learning aids, and course documents are found on *MoodleDE*. Once registered for the class site in *MathXL*, students will be able to login to the site from home with their logins and passwords. It is the student's responsibility to ensure that any computer used outside of class has the appropriate plugins for *MathXL* to function properly. This is done by clicking into the course and running the **Browser Check** found on the main page of the *MathXL* course. NOTE: It is the student's responsibility to ensure that all homework and quizzes submitted from home are properly saved on the site. Students should check their scores online to ensure that credit has been assigned upon submission of each and every assignment. If homework and quiz grades are not successfully sent from home and the deadline passes, the student may not be able to make up the work.

CLASS MEETINGS: Classes will meet at times determined by the high schools. Refer to your high school schedule for times and locations of all class meetings.

ATTENDANCE AND PARTICIPATION POLICIES:

- **Class Meetings:** Every student is expected to attend and actively participate in class.
- **Computer Work:** Every student is **required** to work on assignments for this course both in and out of class every week.
- If you wish to withdraw from this course, it is your responsibility to complete all procedures for withdrawing from a course.

TESTING: *All testing will be done in class, under strict supervision, following guidelines set forth by the Southeastern Louisiana University Mathematics Department.*

Students are expected to maintain the highest standards of academic integrity. Behavior that violates these standards is not acceptable. Actions that violate our standards of academic integrity include, but are not limited to, the following: use of unauthorized material, use of any website other than *MathXL*, use of an unauthorized calculator, communication with fellow students and/or other individuals during an examination, attempting to benefit from the work of another student, and similar behavior that defeats the intent of an examination or other class work. Cheating on examinations and plagiarism are considered very serious offenses and shall be grounds for disciplinary action as outlined in Southeastern Louisiana University's current General Catalogue. (http://www.southeastern.edu/resources/policies/policy_detail/acad_integrity.html)

TESTING RULES: Southeastern Louisiana University Mathematics testing guidelines include, but are not limited to, the following:

1. Arrive on time for testing. Each and every test/exam is only available for a certain pre-determined amount of time.
2. Your facilitator will provide you with scratch paper. No other paper is allowed.
3. All tests and final exams must be taken on school-owned Chromebooks or computers.
4. ALL belongings, including cell phones, smart watches and review materials, must be put away during testing, and should not be near your personal testing area.
5. Absolutely **no cell phones, smart watches or any other handheld communication devices** are allowed during testing. All cell phones must be turned OFF and put away out of sight. If a cell phone or smart watch is taken out and/or used during testing, it will result in a charge of academic misconduct and a score of ZERO on the test/exam (ineligible for dropping).
6. **No personal music devices** may be used during testing. Use of any such device during testing will result in a charge of academic misconduct and a score of ZERO on the test/exam (ineligible for dropping).
7. **No calculator other than the TI-30XII or the calculator contained within *MathXL* may be used during testing.** Use of another unsanctioned calculator during testing will result in a charge of academic misconduct and a score of ZERO on the test/exam (ineligible for dropping).
8. **No website other than *MathXL* and no other area of *MathXL*** may be accessed during testing. Accessing any such website during testing will result in a charge of academic misconduct and a score of ZERO on the test/exam (ineligible for dropping).
9. You may **not** write down any information pertaining to test or exam questions to take with you when you leave the classroom after testing. All scratch paper will be collected before you are allowed to leave. You may not share any test/exam information with anyone who has not taken the test/exam.

COMMUNICATION POLICY: Students are expected to use their Southeastern email addresses in all correspondence with their instructors of record.

DISABILITY ACCESS STATEMENT: If you are a qualified student with a disability seeking accommodations under the Americans with Disabilities Act, you are required to self-identify with your facilitator and/or the appropriate office at your school. That office or your facilitator will be required to forward all relevant information and paperwork to Southeastern Louisiana University. No accommodations will be granted without documentation from your school.

TITLE IX STATEMENT: Southeastern faculty and staff are committed to supporting our students and upholding gender equity laws as outlined by Title IX. Please be aware that if you choose to confide in a faculty or staff member regarding an issue of sexual misconduct, dating violence, or stalking, we are obligated to inform the university's Title IX Coordinator or Deputy Title IX Coordinator, who can assist you in connecting with all possible resources both on- and off-campus. For students who would like to speak with someone confidentially, the Student Counseling Center (985-549-3894) and the Student Health Center (985-549-2242) are both confidential resources.

FERPA GUIDELINES: Southeastern DE students have the same rights and responsibilities as any other Southeastern student. This includes the privacy protections afforded by the Family Educational Rights and Privacy Act (FERPA). Students are free to share their progress in their courses with their parent(s) if they so choose; however, course instructors may not speak with any parent about a student's progress in the course without the student first waiving FERPA rights. Southeastern's FERPA policy can be found here: http://www.southeastern.edu/resources/policies/policy_detail/ferpa.html. For more information on the US Department of Education FERPA, visit the website <https://www2.ed.gov/policy/gen/guid/fpco/ferpa/index.html>

APPEAL AND CHANGE OF GRADE: After a final course grade is recorded in the Records and Registration Office, a change of grade must be approved in sequence by the instructor of record/coordinator for DE math (Ms Ronni Settoon), the instructor's department head, and the academic dean of the College of Science and Technology. In the event of a contested final course grade, a student's written appeal of the grade must be submitted to the instructor within **thirty (30)** calendar days of final grades for the term being due. The grade appeal should also be submitted to Dr. Jeffrey Temple, Assistant Vice President for Academic Programs. Students wishing to appeal their final course grades should refer to the university's official Appeal and Change of Grade Policy here: http://www.southeastern.edu/resources/policies/policy_detail/appeal_grade.html.

OTHER UNIVERSITY AND DE POLICIES: Please see the University Policy Statements posted on *MoodleDE* in the Course Information section. Note that students are **required** to complete the Course Syllabus and Policy Validation and the Online Learning Validation on *MoodleDE*. More information and other important university policies and requirements can be found at these links:

- University General Catalogue
https://www.southeastern.edu/resources/catalog/2022_2023/index.html
- Student Handbook

For Dual Enrollment Program information, including transcript requests, password resets, academic dishonesty, student eligibility, and tuitions costs, see the program website here: https://www.southeastern.edu/future_students/dual_enrollment/

COURSE OBJECTIVES: Upon completion of Mathematics 163, students will be able to define and evaluate limits, find the derivative, use the derivative to solve application problems, find antiderivatives, and evaluate definite integrals for functions of polynomial, rational, radical, exponential, and logarithmic type.

DE MATHEMATICS 163 UNIT LEARNING OUTCOMES

Textbook Section	Student will be able to...
3.1 Limits	Evaluate one-sided limits; Evaluate limits from a graph; Evaluate limits using a table, limit rules, and properties of limits; Solve applied problems using limits.
3.2 Continuity	Find left and right limits and points of discontinuity from a graph; Find points of discontinuity from a function definition; Solve applied problems involving points of discontinuity.
3.3 Rates of Change	Find the average rate of change for a function; Find the instantaneous velocity or the rate of change; Solve applications.
3.4 Definition of the Derivative	Use previous knowledge of slope and continuity to solve problems; Use the definition of the derivative to find f' or tangent lines; Find equations for tangent lines and secant lines; Use a graph to determine qualitative information about the function and/or its derivative; Solve applications.
3.5 Graphical Differentiation	Sketch or identify the graph of the derivative from the graph of the function; Solve applications.
4.1 Techniques for Finding Derivatives	Find derivatives and slopes of tangent lines; Solve application problems.
4.2 Derivatives of Products and Quotients	Use the product rule; Use the quotient rule; Solve application problems.
4.3 The Chain Rule	Find compositions of functions; Use the chain rule to find derivatives; Solve application problems.
4.4 Derivatives of Exponential Functions	Find derivatives of exponential functions; Solve application problems.
4.5 Derivatives of Logarithmic Functions	Find derivatives of logarithmic functions; Answer conceptual questions; Explore logarithmic differentiation; Solve application problems.
5.1 Increasing and Decreasing Functions	Determine the intervals on which a function is increasing or decreasing using a graph; Determine critical numbers and the intervals on which a function is increasing or decreasing; Solve application problems.
5.2 Relative Extrema	Locate and identify relative extrema from a graph of f or f' and algebraically; Solve application problems.
5.3 Higher Derivatives, Concavity, and the Second Derivative Test	Find and evaluate higher derivatives; Find inflection points and determine concavity both from a graph of f or f' and algebraically; Find critical numbers and use the second derivative test; Solve application problems.
5.4 Curve Sketching	Sketch the graph of a function given its formula; Sketch the graph of a function that satisfies certain properties; Use the graph of f or f' to determine characteristics of f , f' and f'' .
6.1 Absolute Extrema	Find absolute extrema from a graph; Find absolute extrema on a closed or open interval; Solve applications.
6.2 Applications of Extrema	Solve maximization/minimization problems; Solve other applications involving extrema.
6.3 Implicit Differentiation	Use implicit differentiation to find dy/dx ; Use implicit differentiation to find equations of tangent lines; Solve applications.
6.4 Related Rates	Evaluate dy/dt at a point given the relationship between x and y and the value of dx/dt ; Solve applications.
7.1 Antiderivatives	Find indefinite integrals and solve application problems.
7.2 Substitution	Use substitution to find indefinite integrals and solve application problems.
7.3 Area and the Definite Integral	Approximate areas; Use definite integrals to find exact areas; Solve application problems.
7.4 The Fundamental Theorem of Calculus	Evaluate definite integrals; Use the definite integral to find area; Solve application problems using the definite integral.
